EXPERIENCE

Kineton, Naples— *Functional Safety Engineer*

JUN 2021 - JUL 2026

- 5+ years of Functional Safety experience in automotive, working according to ISO 26262 and aligned with ASPICE / OEM requirements via SS 7740 (requirements mapping and process tailoring).
- Execute SW unit design and unit testing; perform peer reviews and code inspections on safety-critical modules (MISRA, static analysis findings), producing verification reports and evidence for the Safety Case.
- Instrument and analyze timing/real-time behavior of safety mechanisms and safety-relevant execution paths.
- SW engineering on safety-relevant components: author SW integration requirements and contribute to SW architecture; maintain SW architecture documentation and SW requirements (SEooC, MICROSAR Safe, MCAL).
- Develop and maintain key FuSa work products: DIA, Safety Plans, Safety Case and GSN argumentation, confirmation measures, and compliance checklists.
- Plan, coordinate, and monitor FuSa activities and deliverables; mentor and support the project FuSa team.
- Lead and support FuSa/ASPICE/OEM audits and assessments; primary contact for safety and process topics with customers and suppliers.
- Apply GenAI to FuSa support workflows (human-in-the-loop): RAG/agents to accelerate compliance and analysis tasks.

Kineton, Naples— *Automotive Internship*

MAR 2021 - JUN 2021

- C/C++
- Build systems and debug tools
- Integration Requirements

EDUCATION

Universidad Politécnica de Madrid - ETSISI, Madrid— *Erasmus+ Trainee*

SEP 2020 - FEB 2021

- Azure, GitHub, Python, Keras, TensorFlow, OpenFace. ML application development: Emotion Recognition
- Final mark: Sobresaliente (10/10)

University of Naples Federico II, Naples— *Master's Degree in Computer Engineering*

SEP 2015 - MAR 2021

"Multimodal analysis of emotions in multimedia"
Goal: ER application developed on Azure/Colab platforms
Final mark: 107/110

SKILLS

ISO 26262:2018 | ASPICE | SS 7740:2023 | Traceability | IEC 61508 | Python | C/C++ | Team working | Plan & Organize

AWARDS

Scholarship Winner - 2009-2012

LANGUAGES

English C1
https://cert.efset.org/en/wE9RZA

TÜV SÜD CERTIFICATION

ISO 26262:2018 (L1)
IEC EN 61508:2010 (L1)

University of Naples Federico II, Naples— *Bachelor's Degree in Computer Engineering*

SEP 2009 - JAN 2015

"NoSQL technologies: Sesame"
Goal: Sesame Database Manager implementation focus
Final mark: 96/110

VOLUNTEERING

Freebacoli, Bacoli— *Volunteer*

SEP 2010 - MAY 2015
